STAINLESS PALLET DISPENSER

The Pallet Dispenser Overview:

Efficient pallet handling made easy with a Pallet Dispenser / Pallet Stacker

There are many benefits to introducing a Pallet Dispenser or Pallet Stacker to your warehouse, picking operation, or facility process. It will not only improve the overall pallet movement processes, it will greatly improve employee safety due to reductions in manual pallet handling.

Stainless Pallet Dispenser Benefits:

- Eliminate manual handling of pallets from stacks to the floor
- Will reduce employee injuries due to manual pallet handling
- Productivity increase due to less time or labor involvement
- Reduce wasted floor space used to store or stage pallet stacks
- Reduces pallet damage related issues
- Stand Alone models provides simple stacking and dispensing at ground level
- Accommodates many pallet footprints and designs
