

LIBERTY 3 FULLY AUTOMATIC STRETCH WRAPPER

Liberty 3 Fully Automatic Stretch Wrapper Product Description

The Liberty 3 improves productivity by wrapping loads automatically with a simple pull of the lanyard cord, eliminating the need to have the operator attach the film at the beginning or cut and wipe the film to the load at the end of the wrap cycle. Loads can be wrapped up to 50% faster. The Liberty 3 is a true fully automatic system with built-in features for increased productivity that are not available on other simpler automatics.
